CLUB HOUSE
THE PRIVATE ENTERTAINMENT SPACE

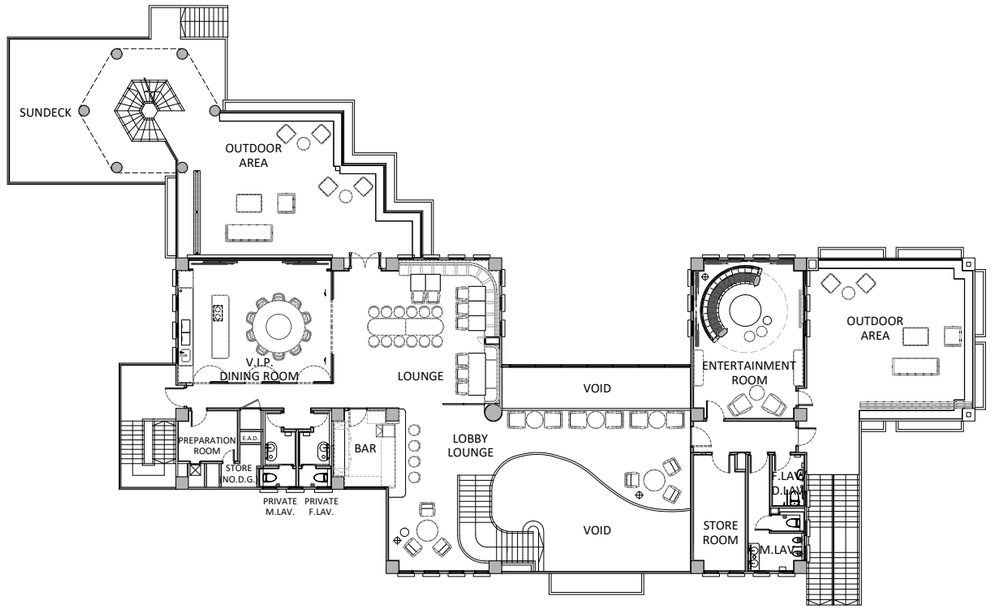
" Based on our professional background and experience in different aspects, our design can perfectly join all different functions together to create an unforgettable experience for the target customers."

MARINA CLUB
lantau yacht club

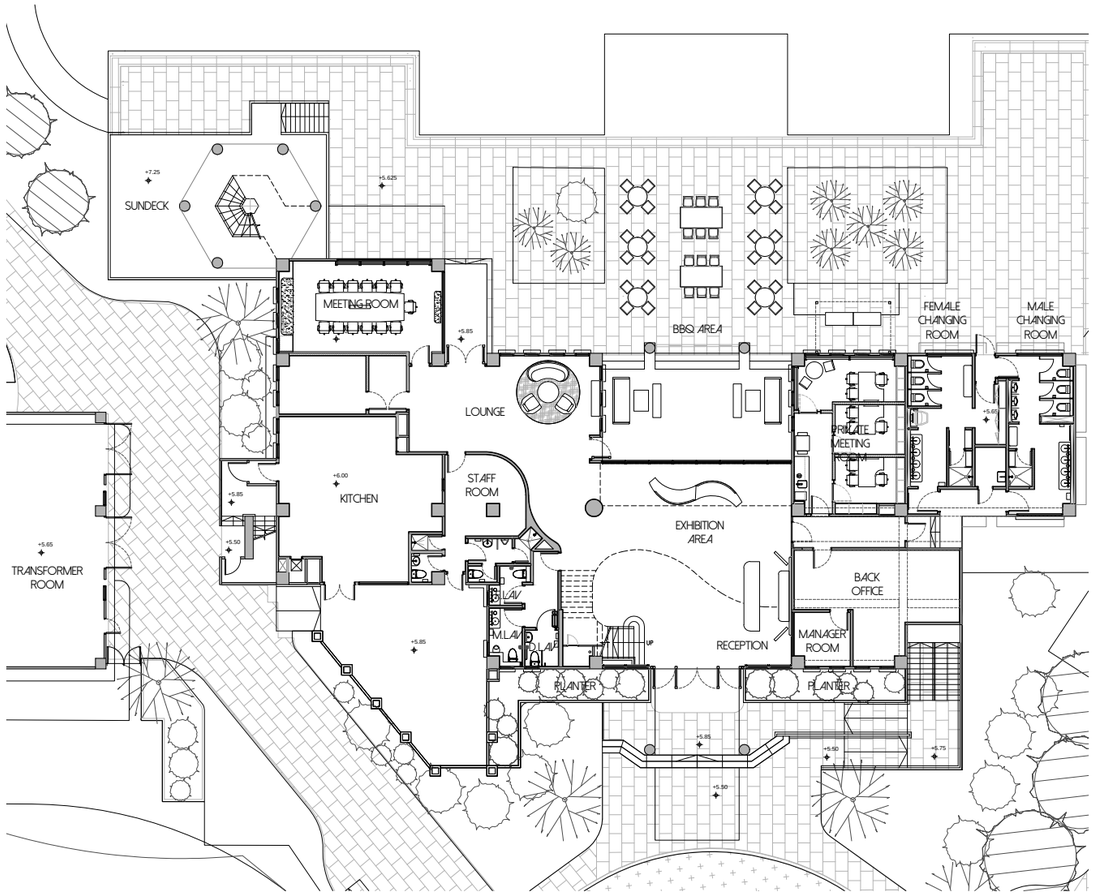
"A tranquil area away from the city and infused with a tinge of Mediterranean lifestyle."

HONG KONG DESIGN AWARDS 2021 DRIVEN4DESIGN SILVER

Lantau Yacht Club, Discovery Bay, when the summer sun brightens up the interior through infinite windows in the lobby, a fine touch of ocean blue and pattern gold details contrast with the calm white and natural oak that brings the warmth from exterior to the interior. This gives the space not only an ordinary but exceptional defined ambiance to the customers as they enter from the grand entrance like a yacht of its own.



1/F LAYOUT PLAN



G/F LAYOUT PLAN

CLUB HOUSE

As you walk in, a grand entrance door was designed with metal pattern details & mirrors reflecting the interior space, this not only serves as an enlargement but with tiled window blinds at the side, it's also redirecting excessive amounts of sunlight giving the space a cool and breezy atmosphere. The yacht spirit flows through the whole club from the iconic round cabin window to the fine rounded corners in all spaces, it gives a continuity throughout the club extending from corridor & open areas to enclosure of offices and upstairs individual rooms. The monotone wooden wall stripe on the first floor dining area also serves as a hint of the deck, giving customers the glamorous feel of overlooking the sea while having their meal within the designed dining cabin.

From the open area to the VIP entertainment room, this is where the atmosphere transformed from a breezy summer afternoon to a gentlemen's club. The fullness of walnut wood, classy black leather and metal cabinets as well as the velvet cushioned red sofa that fills the room with another level of elegance. The room was specially designed with smart lighting, noise cancelling panels and curved ceiling detail as a package for special events.

Throughout the whole club design, this "cabin" provides an all rounded experience if you're looking for a summer getaway atmosphere.

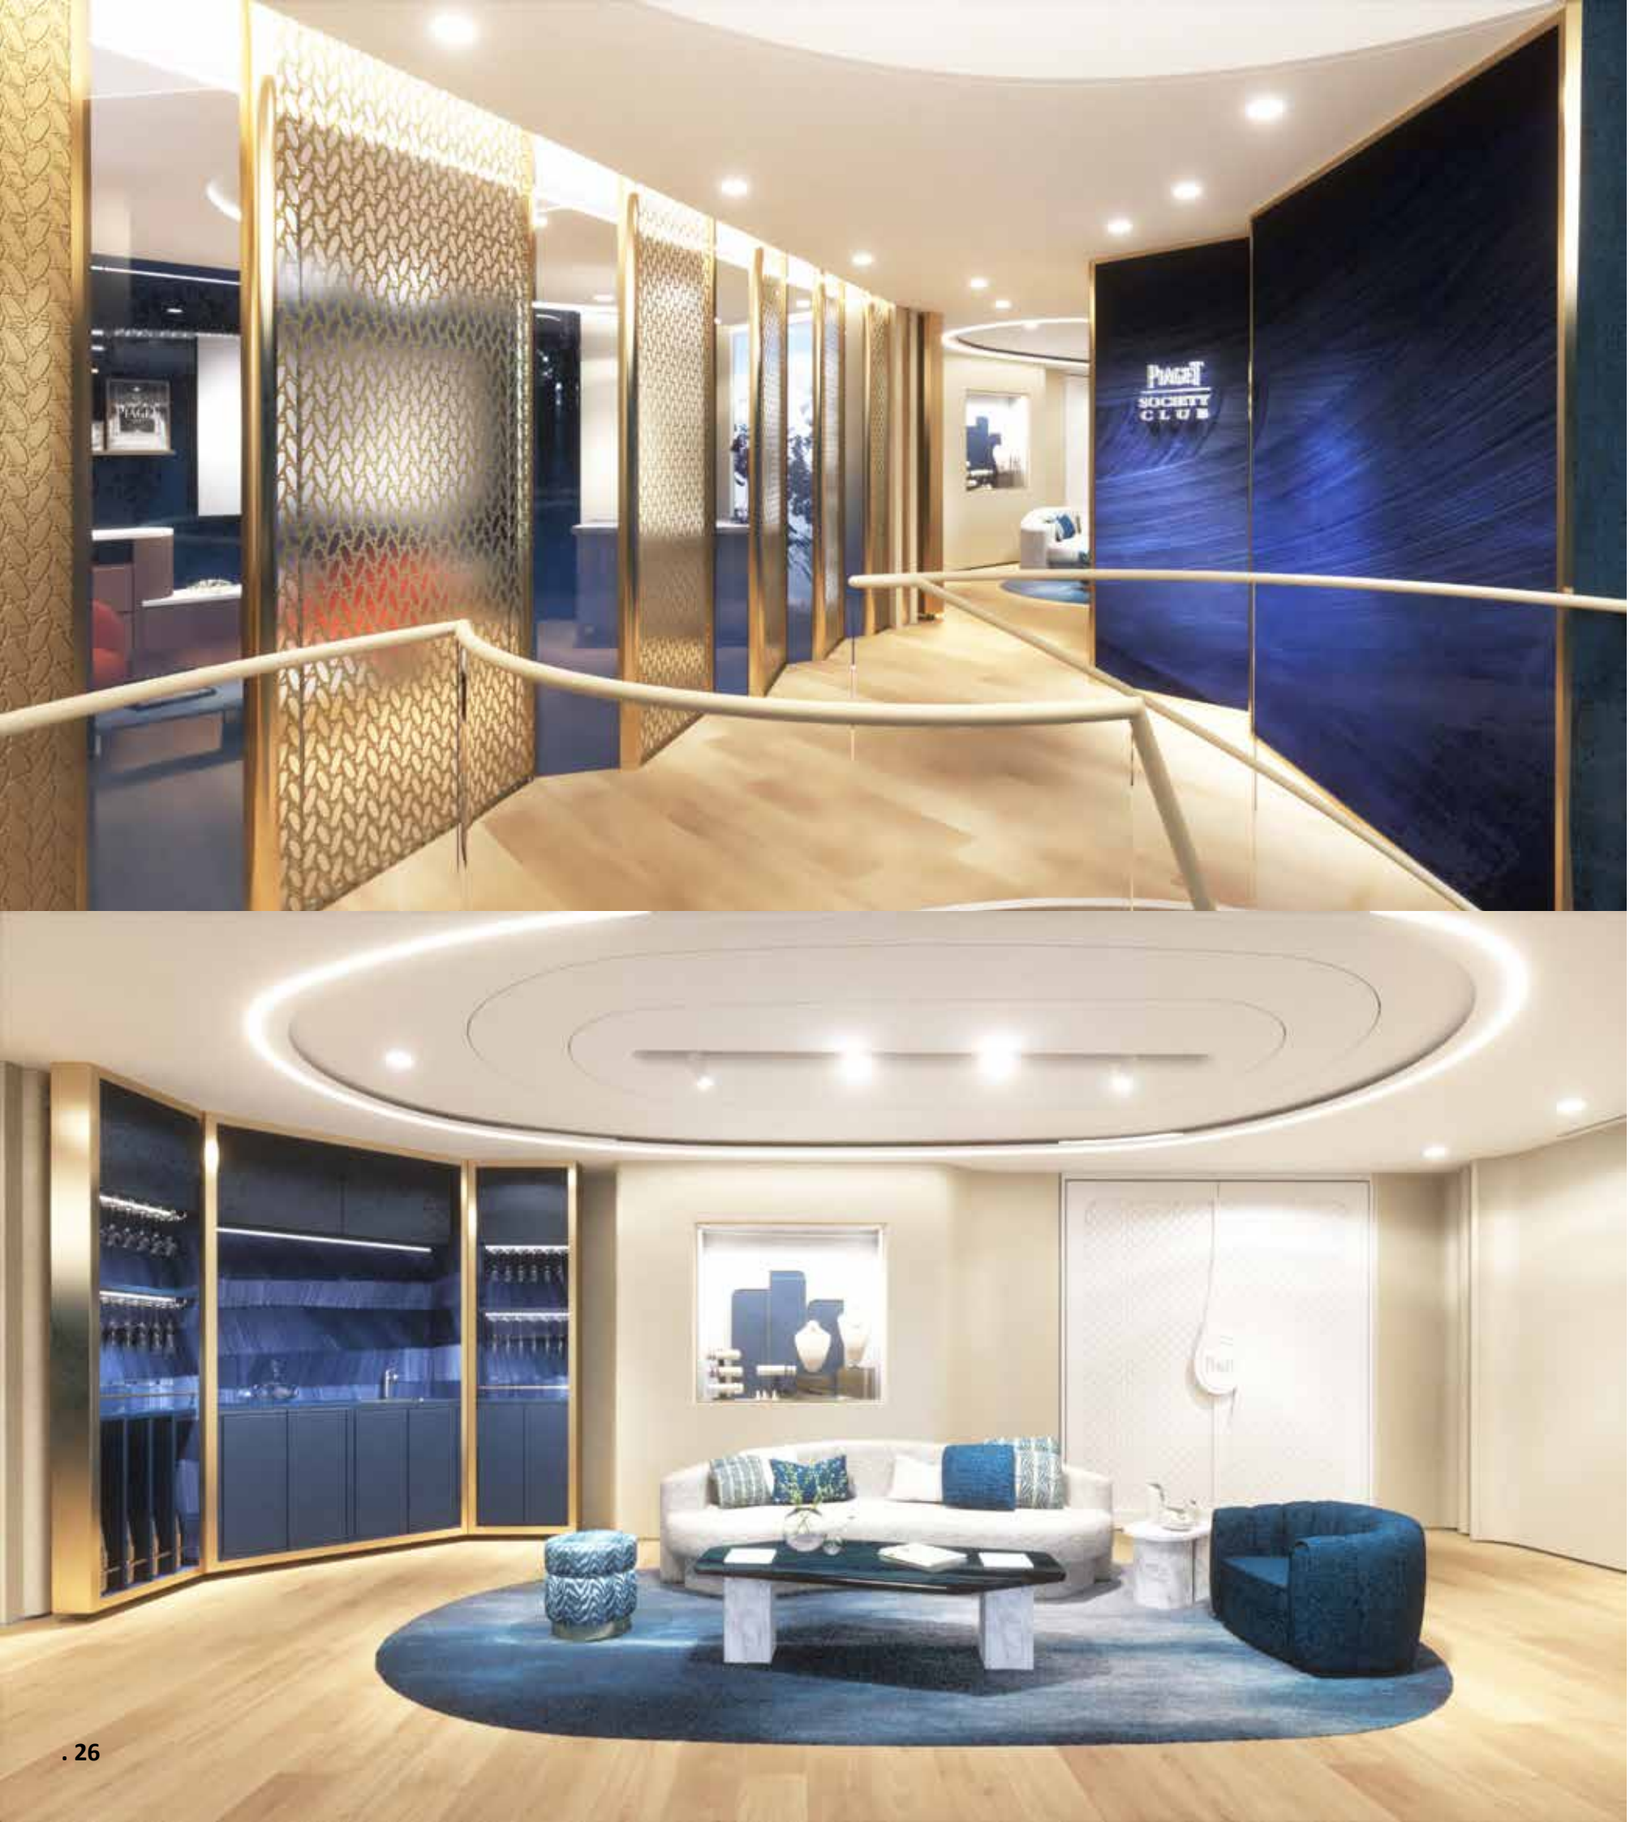
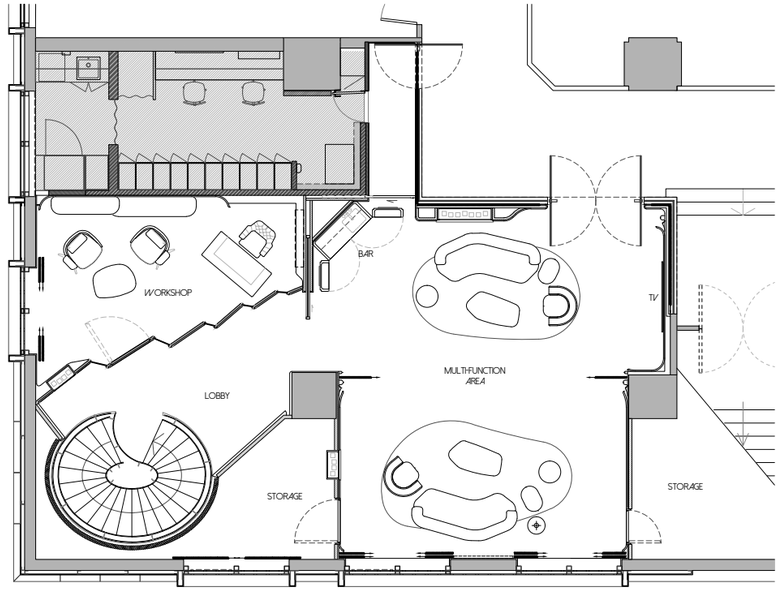
PIAGET SOCIETY CLUB
luxury jewellery & swiss watches

"The Piaget Society Club is not just about the grandeur of the Piaget creations, but about the beauty of the extraordinary relationships built between the Piaget Society members and also the beauty in the moment of doing so as a community."





M/F LAYOUT PLAN

PROJECT INFO

Nature: **ClubHouse**

Location: **Mandarin Oriental Hotel, Central, Hong Kong**

Size: **100 sqm**

The Design Concept of **Piaget society club** is based on the Luxury and Stylish Maison that welcomes all jewellery, art lovers, and fans to enjoy the private moment & special experience that resonates with Piaget.

Throughout the whole space, you will find different characteristics of Piaget, From Mens to Ladies, Modern to Artistic, Vibrant, and Harmony. Just as Piaget's Jewellery and watch designs are full of excitement and capture every moment of nature, Art, and Life.

As you walk up from the stairs, you will be surrounded by feature walls that sit in an angulated position, both highlighted with Piaget Brand Theme colours, Blue and Gold. The wall setting provides a dynamic introduction that reflects the nature of the brand and it represents a welcome home gesture for all Piaget fans around the world.

At the private jewellery exhibition area, a calm & soft setting was designed but still maintains an artistic sensation, the main idea is to create a very comfortable and stressless space for the guest to appreciate the Jewelry art piece.

Inside the Workshop, you will find a Watchmaking desk like the one you can find in the Piaget Watch factory from Geneva, to further enhance such experience, a virtual window projecting the view of Geneva is sat right at the watch making area.

rebranding & interior

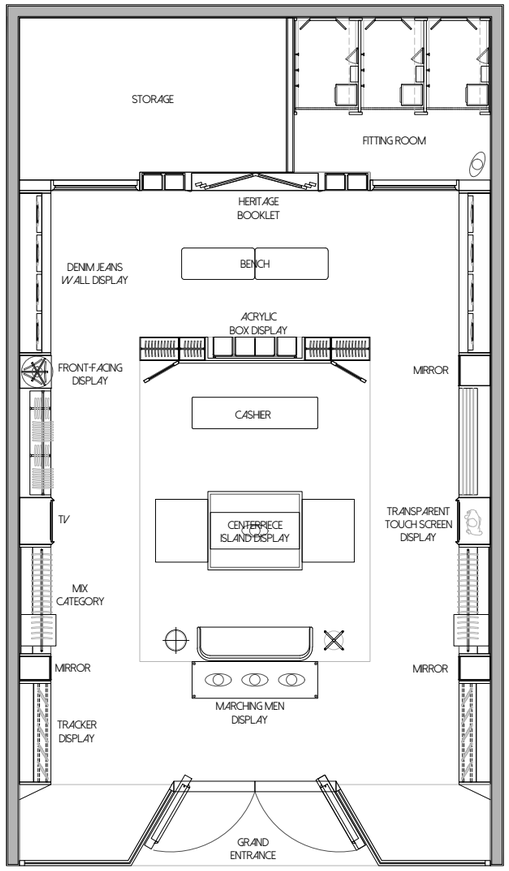
"Time goes by, history remains.
Things may keep on changing, but not the spirit."

PROJECT INFO

Nature: **Retail Rebranding**

Location: **Global**

Size: **11 sqm - 150 sqm**



LAYOUT PLAN

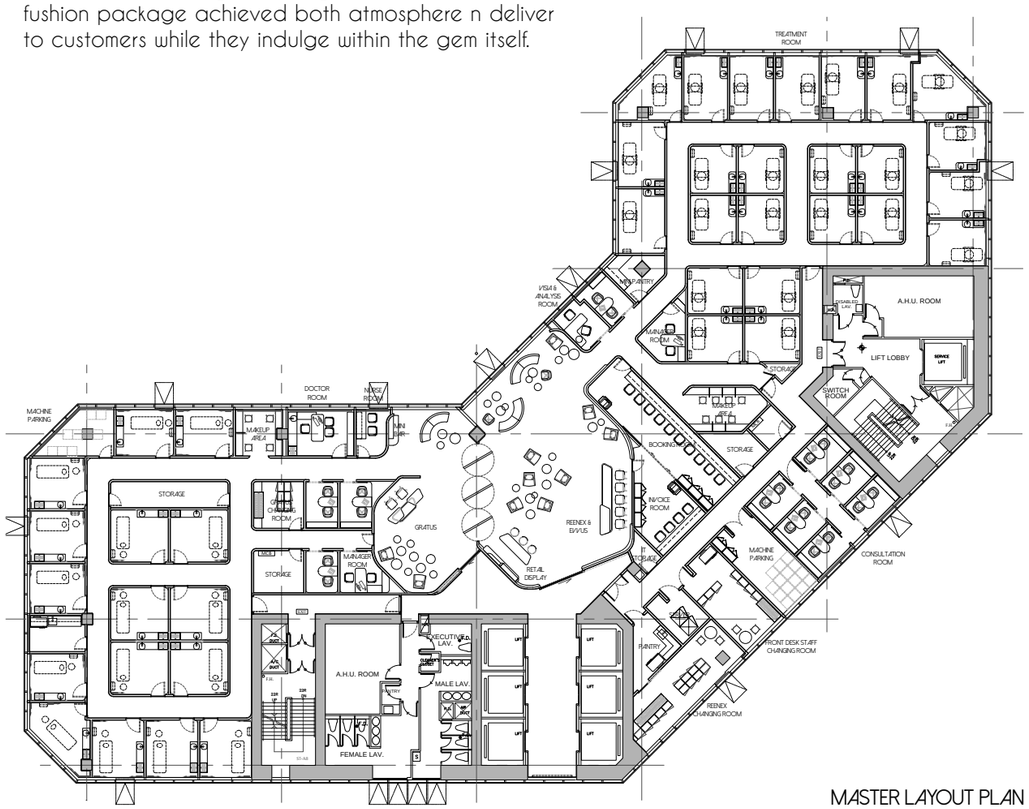
Lee has known to be one of the worldwide leading denim brands, with a glorious history of 130+ years. To celebrate the spirit and values of the brand, the rebranded shop interior has reimagined the idea of carrying forward the brand by adding modern values to the heritage brand.

The shop design, therefore, comes along with a mix of classic and modern design elements, such as the vintage wooden doors with screen displays at the entrance façade. A majority of metallic silver stainless steel and dark wood finishing has been used for closet fabrication, offering a variety of display wardrobes to represent the modern and vintage zones. A couple of tech-display are applied to the shop displays so to offer a unique shop interactive experience to customers, including the transparent screen that can demonstrate the product and product descriptions at the same spot in multiple layers. Another brand feature to be found in the history wall at the back end of the shop, exhibiting the legends made by the brand in the form of text, vintage products, old posters, and digital graphics, to share the back-bone spirit of Lee to their customers in the store.

NEODERM
beauty centre

A world class company in the medical beauty industry with a relentless spirit to pursuit for excellence. Neoderm offer 2 individual aesthetic treatment brands, NOOS and Gratus, both strive for medical advance as well as comfortable luxury experience to their customers.

From clean perfect geometry to immense gesture, the design concept represents the process of revealing hidden gem from its crystal form. The mining and polishing brings back the true beauty of every single customer and offers the best among the industry, just like the hidden gem among all kinds of minerals. This fushion package achieved both atmosphere n deliver to customers while they indulge within the gem itself.



MASTER LAYOUT PLAN

PROJECT INFO

Nature: **Beauty Service Centre**

Location: **TimesSquare, Causeway Bay, Hong Kong**

Size: **1300 sqm**

Level: **1 (40 Treatment Rooms)**

Collaboration of materials and the concept express itself through considerate details from lobby to every corner of the treatment rooms. The multiple gold color coated layer of aluminium panels represents the gradation of changing beauty moments in one's self. The variety white textures defines use of materials like textile wallpapers, technical stones and different types of marbles in several areas. Indirect lighting was carefully drafted using light trough instead of sensitive lighting to avoid over exaggerated impression. At the end of the day, we only wanted to provide a professional,comfortable yet extravagance environment for all users.

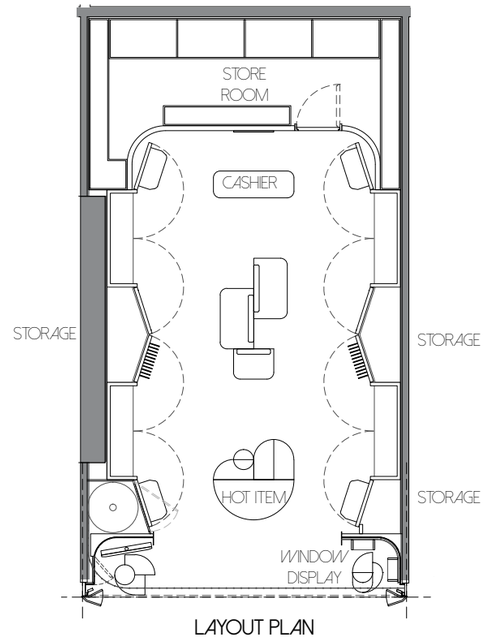
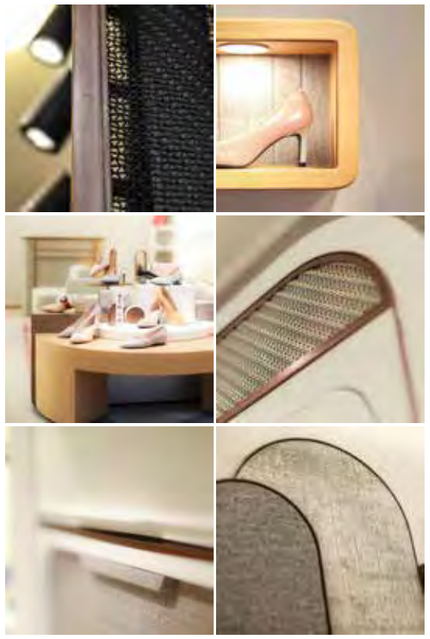
MILLIE'S
Interior & Branding



LAYOUT PLAN

' A Fancy Private Shoe Walk-in Closet for Young Feminine '

The 2019 Concept for Millie's Shoe Boutique is to create a comfortable, cozy and carefree environment for the customers to pick their favorite pair of shoes. The whole interior design is driven by the idea of a "Shoe Cabinet" and turn the space into a fancy private "Shoe Closet" for the customers. This is shown by crafting three individual function space into areas for shoe display, storage and experience zone; spaces that define simplicity, minimalism, functionality.



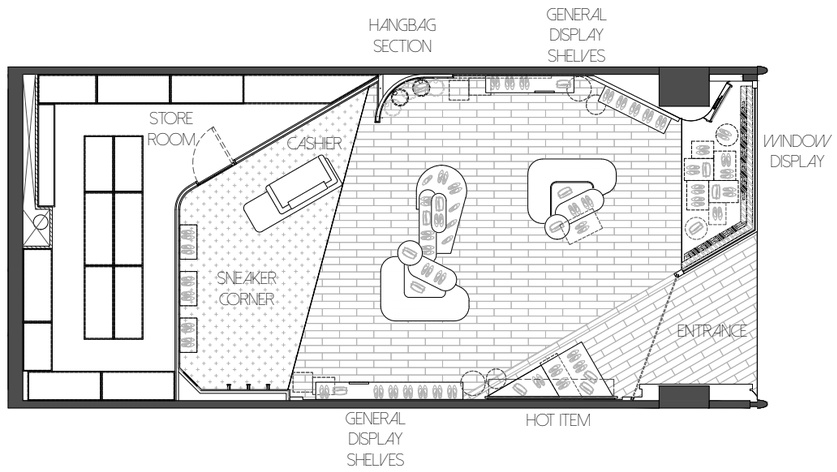
There are over 30 different materials, from fabric, artificial stones, timber, metal and more. Creating a special design carpet as the center feature using a mixture of pastel colors to emphasize a comfortable environment. Throughout the interior, we have focused on curved edges for a soft and smooth finish. To construct art with basic geometry, we have designed each "Shoe Cabinet" to have their own unique style and display systems to showcase a particular product. Overall infusing a warm ambiance for every customer who enters the boutique as they enjoy their shopping experience.

PROJECT INFO

Nature: **Retail Rebranding**

Location: **TimeSquare, Causeway Bay, Hong Kong**

Size: **40 sqm**



To celebrate Joy & Peace's 25 years anniversary, Joy & Peace has a new-look and using the sub-branding Joy & Peace Galleria to exhibit their latest Art Piece - Shoes. The new-look uses Blue Blazes as the theme color to demonstrate the event of celebration and excitement, yet, giving a cool new-look as a breakthrough to the original classic and feminism.

PROJECT INFO

Nature: **Retail Rebranding**

Location: **Asia Pacific**

Size: **15 sqm -150 sqm**

GALLERIA
by Joy & Peace
rebranding & interior

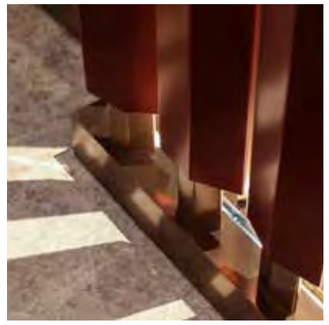
Besides the Blue Blazes Theme Color, the angulated geometry, white aluminum, steel, stones panels combine with the matching colors rubber flooring also suggest the freedom and dynamics of modern feminism, this design has a high contrast between Bright and Dark, and the Art Piece will be demonstrated in different zone depends on their characteristic.

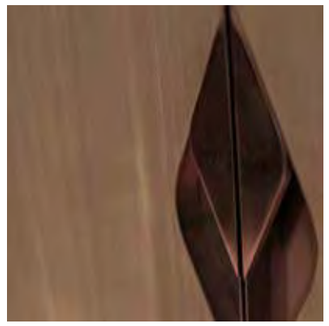
The way of the layout has set in an angle is to further enhance the exhibition experience. By setting it in an angle, the audiences are now having the full view of the space, but giving it all different perspectives as they glance through along the space and appreciate the Art Piece in all angles.

FOOD AND BEVERAGE RESTAURNAT AND BAR

PEONY
chinese restaurant

"The gradual blossom movement of the peony creates corolla curve gesture while you dining under this elegantly designed venue."





PROJECT INFO

Nature: **Food and Beverage**

Location: **Discovery Bay, Hong Kong**

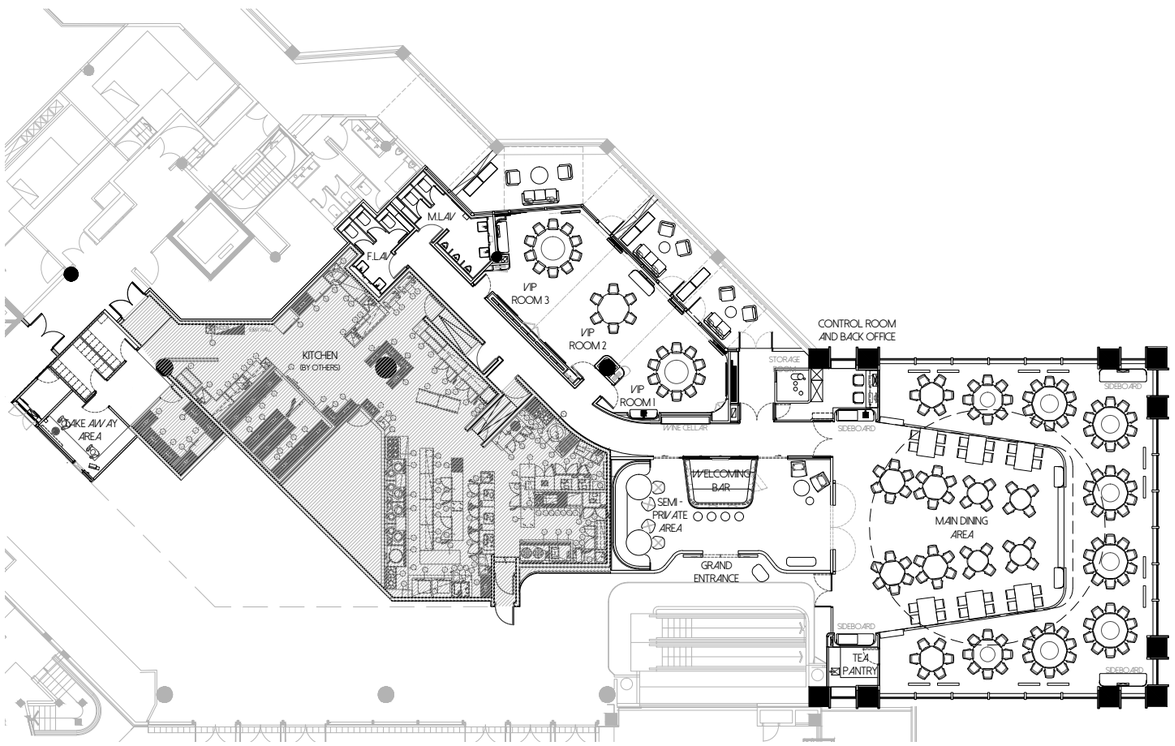
Size: **1200 sqm**

A brand new luscious journey begins at Peony with panoramic views of Discovery Bay. The design represents good fortune, prosperity and honor as one enters the space.

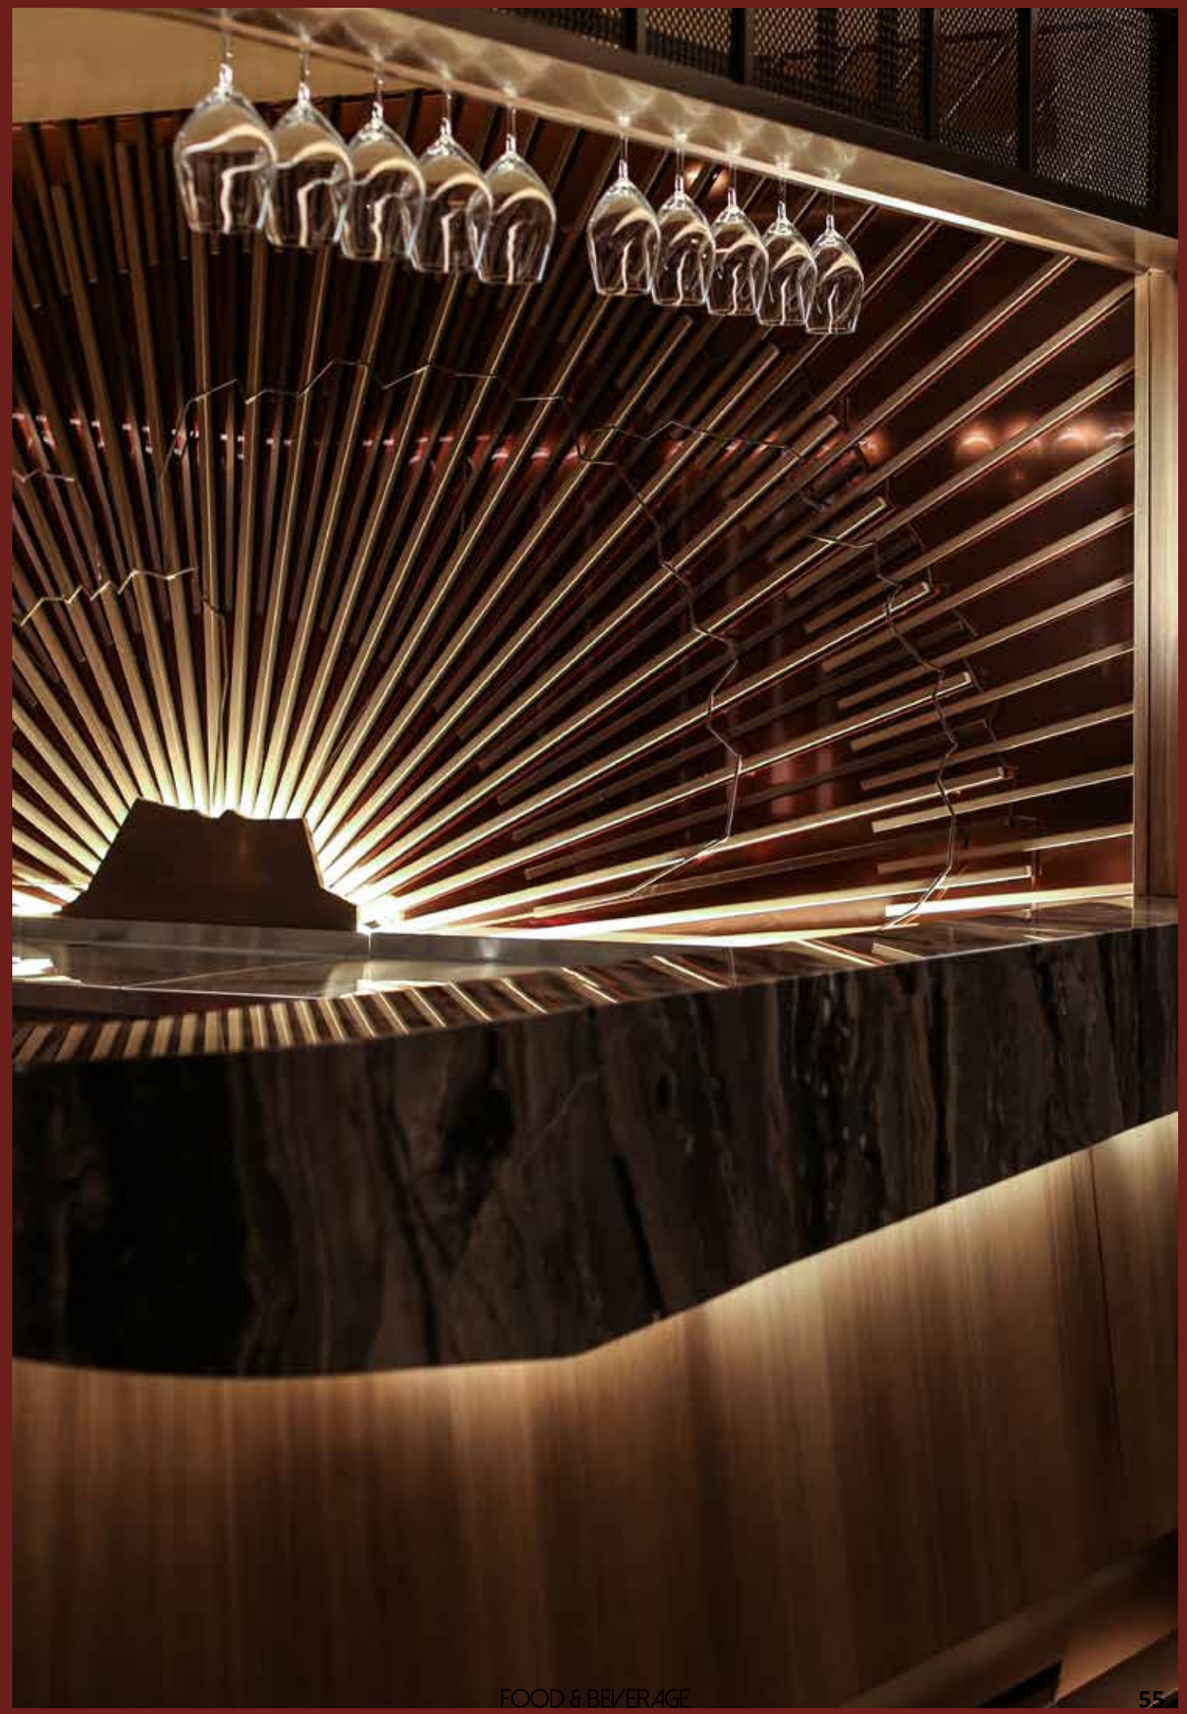
The colour red is derived from the signature Peony flower - Buckeye Belle, juxtaposing with the skyline and striking bronze accents in the interior. Rich colours of buckeye belle red, shades of grey from upholstery and bronze-coloured metallic partitions set the perfect ambience for the dining space. Peony exudes the warmth and familiarity of a traditional Chinese restaurant with the refinement and elegance synonymous with the king of flowers - **Peony**.

Crowning the main dining lobby with a Peony-inspired ceiling feature, rays of sunlight shift as the day passes by. The transitional movement surrounds the interior with warmth and light as they pass through the corolla curves.

MAIN DINING HALL



MASTER LAYOUT PLAN



PROJECT INFO

Nature: **Food and Beverage**

Location: **Central, Hong Kong**

Size: **450 sqm**

VICTORIA CITY RESTAURANT
chinese cantonese cuisine

Victoria City Restaurant has been providing high-quality Cantonese cuisine in Hong Kong since the 1980s. Being recognized by local and overseas customers, it has been awarded a number of international awards. With delicious cuisine made from fresh ingredients, Victoria City Restaurant has always been a watch of Chinese high-end restaurants and enjoyed the reputation of "Celebrity Canteen" .

Today, Victoria City Restaurant still upholds the enthusiasm for Cantonese cuisine and leads Cantonese cuisine to the forefront by continuously creating new dishes and infusing a variety of cooking methods to bring surprises to customers.

In this project, we would like to give a new image to the brand that reflects the its continuous evolution. The elegance of traditional Chinese style is reinterpreted into today's modernity and to fit into the overall space with a touch of French style.

Instead of massive use of red color in traditional Chinese restaurant, we have applied navy blue, grey and white as the main color palette to feature the elegance in a desaturated state. The touch of matte gold color offers a grand atmosphere with a modern sense. Marble stone corresponding to wooden linings symbolizes the fusion of new elements to Chinese culture.

COZI LOUNGE
hotel cozi

'A brand new perception -
The Great Gatsby Lounge in the industrial area'

Situated inside **Hotel Cozi** - **Cozi Lounge** will take you into another dimension. As the customers walk in from the grand and nature-themed reception with a day time ambience through into a much darker and evening-like environment restaurant and bar for people to relax and unwind in.

A unique pattern was created and used around the interiors surrounding, from the use of the different metals to form layers and help enhance the height of this restaurant. We have decorated the restaurant and bar with an Art Deco theme in mind, with a combination of gold and different variety of stones for a sophisticated and elegant finish.

To differentiate the interior into several areas - restaurant, bar, standing area, we have made use of different floor, wall and ceiling patterns. The diversity of patterns and materials craft a striking visual effect. Gold and stonework exude sophistication across the laidback environment.

Although Cozi Lounge is situated in the industrial area, we did not design the interior space in an industrial style. Instead, the restaurant is designed in an elegant and grand style with metallic element flowing through the whole design, bringing out a sophisticated and dynamic feeling. This project breaks the limitations of the location and environment, bringing a brand new perception to industrial areas.

UG LAYOUT PLAN

MIXED COMMERCIAL PLACE FOR WORKING

" With our professional design team working alongside our architecture team, we have designedextravagant and sophisticated multiplex buildings. "

PROJECT INFO

Nature: **Mixed commercial**

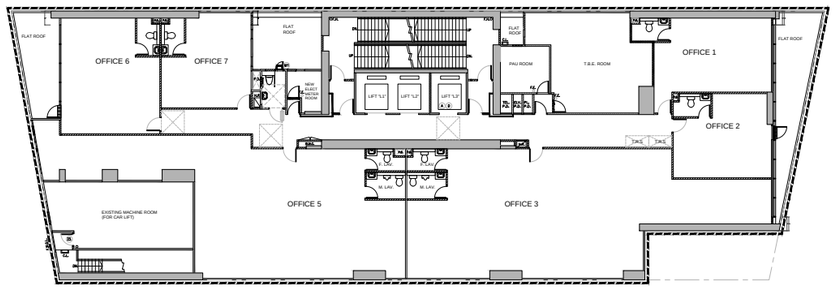
Location: **Tuen Mun, Hong Kong**

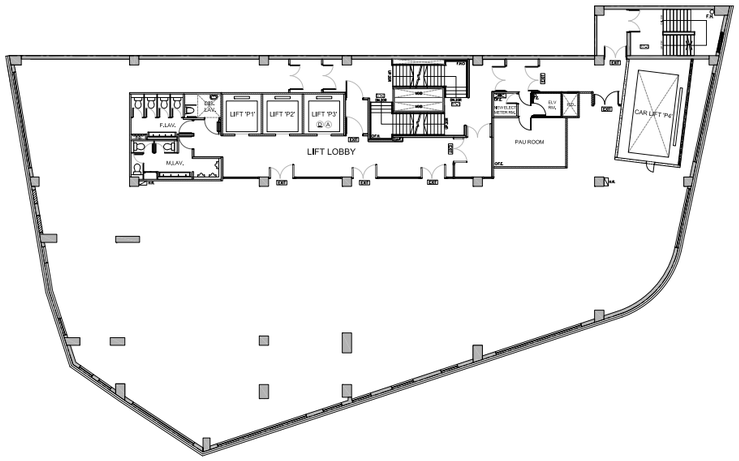
Size: **26640 sqm**

Storey: **27**

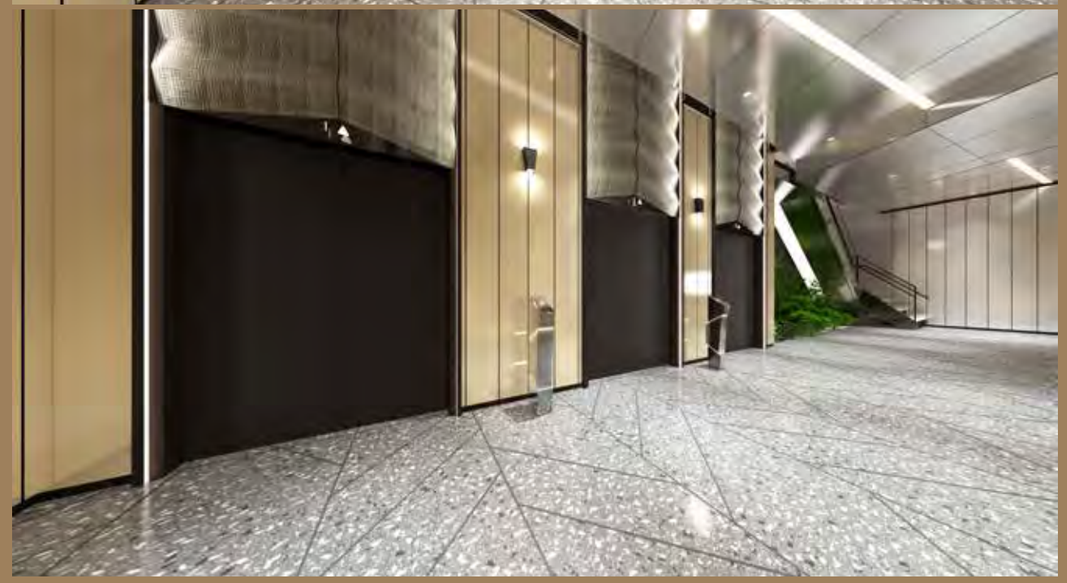
ONE VISTA TOWER

office building • shopping mall





3RD FLOOR LAYOUT PLAN

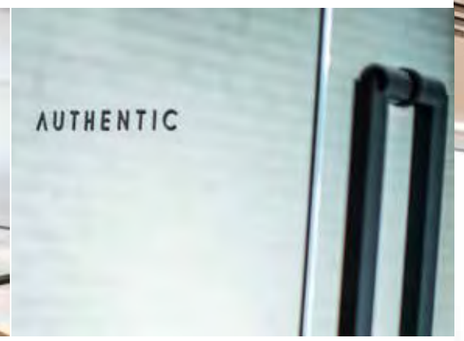


" We have given this multiplex an avantgarde and luxury design throughout the whole building. "

From its facade, spacial arrangement and interior design so that it stands out amongst its surroundings. Throughout the interior we have used champagne gold cladding for a bright and impressive welcoming as people enter the building. As the corridor is quite narrow we have used a combination of patterned parallelogram silver cladding on the ceiling and herringbone patterned pearl grey terrazzo flooring in various sizes to create sleek and tilted angles to enhance the corridors space. Moreover, for a posh and elegant look we have used gradient-frosted glass windows so that people can slightly look outside, as well as letting natural light come through the interior - naturally creating a soft lighting effect.

PERSOL KELLY
international human resource company office

" A contemporary and minimal interior to grasp a sophisticated and professional atmosphere. "



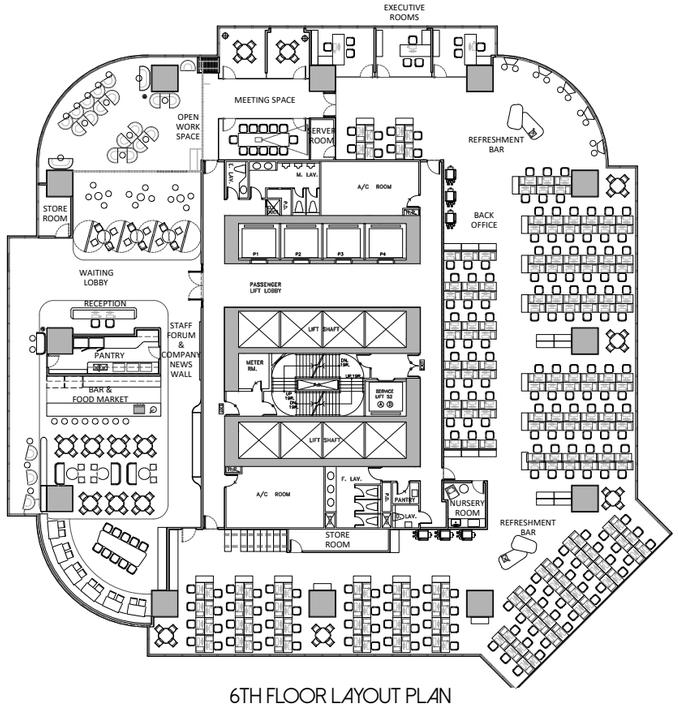
PROJECT INFO

Nature: **Office**

Location: **The Gateway Tower 2, Tsim Sha Tsui, Hong Kong**

Size: **1300 sqm**

No. of Seat: **200**



6TH FLOOR LAYOUT PLAN

In the reception area, white and grey is adopted as the main color tone to give a warm and natural ambience, welcoming the guests and visitors. We have decided to use wooden flooring for the area as it enhances the spatial qualities by emitting light from the spot lights used on the ceiling.

In the Lounge area, we have used the same materials and colors with touch of yellow and mint green to give a sense of vitality and talent, enhancing the interaction and communications between people.

Instead of walls and partitions, we have decided to make use of patterns on flooring and ceiling to differentiate the interior space into several areas with different levels of privacy.

Enjoying the spectacular view of Victoria Harbor, the meeting rooms with large glass partitions framed in black obtain as much natural light as possible. With white-brick wall and black and wooden furniture, each room looks like a studio - a space where personality, talent and creativity is expressed, rather than a meeting room in an office.

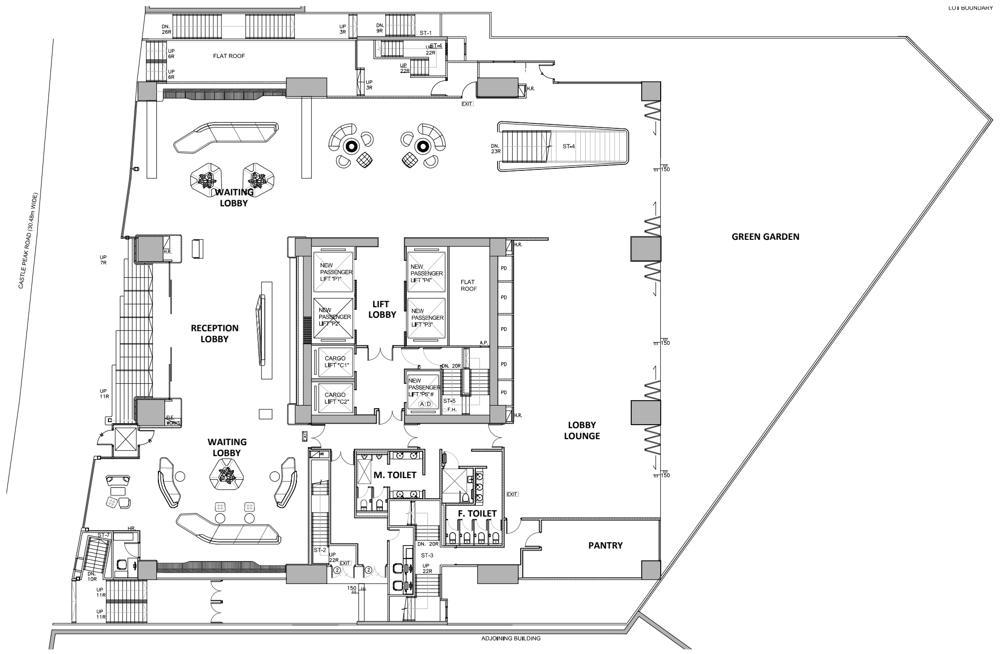
Room Size: **15-39 sqm**

HOTEL COZI
castle peak road

"The combination of natural and industrial materials represented the uniqueness of Kwai Chung - Hotel Cozi"



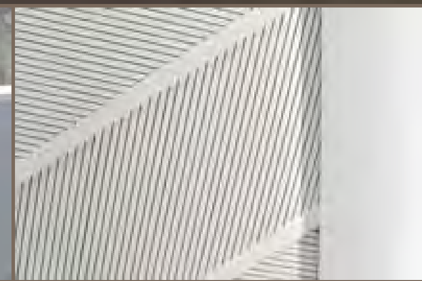
UG MASTER PLAN

19 / F LAYOUT PLAN

Hotel Cozi is designed into a comfortable and refreshing accommodation in Kwai Chung district for people to retreat from busy life and fast pace. Guests are welcomed with a grand and cozy reception and lobby area that have been decorated with plenty of greenery combined with industrial elements for that unique first impression.

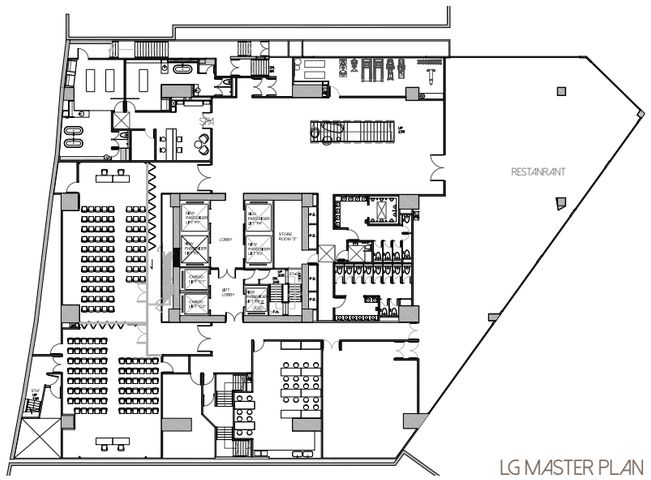
The principle concept behind Hotel Cozi is to bring in nature elements from the outside into the interior combining it with industrial materials such as the metal bars on the ceilings in the lobby area because we wanted to create a unique atmosphere.

We have created a very warm and welcoming environment in the main lobby area by using light and nature-like colors on the walls and floor. We have surrounded the entrance with glass walls to let in natural lighting as it makes the entrance look even grander and tranquillity. On both sides of the lobby, we have created two slightly different lounge areas but both have the same cozy and comfortable atmosphere for the customers to relax in.

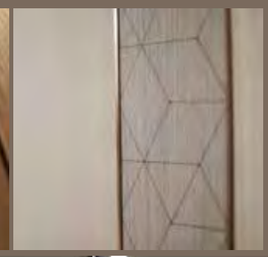


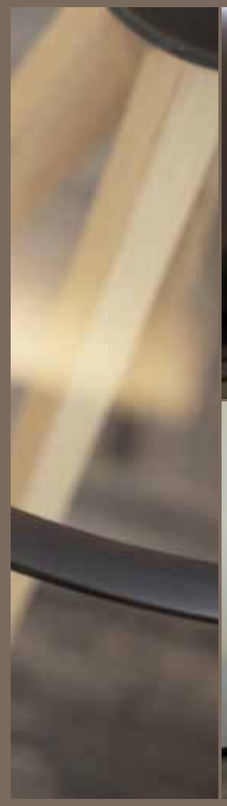
" Massive use of wooden materials in the Spa Room "

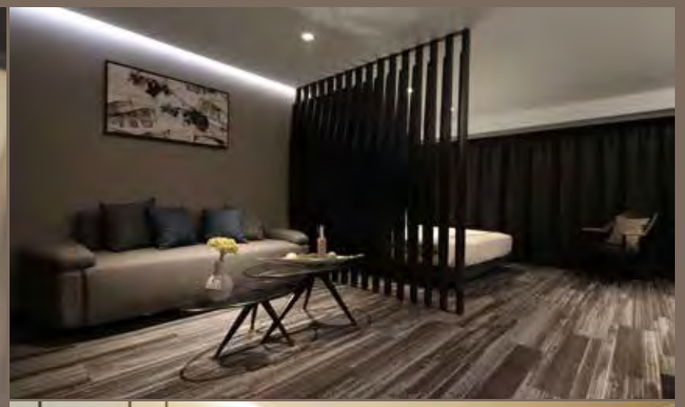
As the main materials for the interior of Spa Room, wood is massively used from floor, table, wall to the ceiling. The use of wooden texture connects the guests to the mother nature so that guests could relax and enjoy the spa as through in the natural environment



LG MASTER PLAN







Inspiration from nature - Looking at the logo of Hotel COZi, one may find that the lines and patterns are emulating the plant roots, stems and leaf veins. The pattern of the logo, which symbolizes the power of nature, is adopted around the interior including ceilings, flooring, walls, room numbers.

Elegant ambience in The Elite Suite - As the pinnacle of Hotel COZi, the Elite Suite is designed with its understated elegance. The interior is aesthetically pleasing and comfortable for guests to relax. Black, grey and white color tone is adopted to give an elegant atmosphere.

The interior is separated into two areas by contrasting the color tone - dim and bright. Guests could enjoy a home-like stay in the Elite Suite - unwind in the living area and then take a rest in the bed.

Natural atmosphere in the COZi floor - The guest rooms in the COZi floor are decorated in a contemporary palette of natural colors- grey, white, wooden color in textured fabrics as soothing to the spirit as they are to the eye. The interior furnishings are designed with restfulness and comfort in mind.

HOTEL EASE ACCESS
KA HING ROAD

PROJECT INFO

Nature: **Hotel**

Location: **Kwai Chung, Hong Kong**

Size: **4728 sqm**

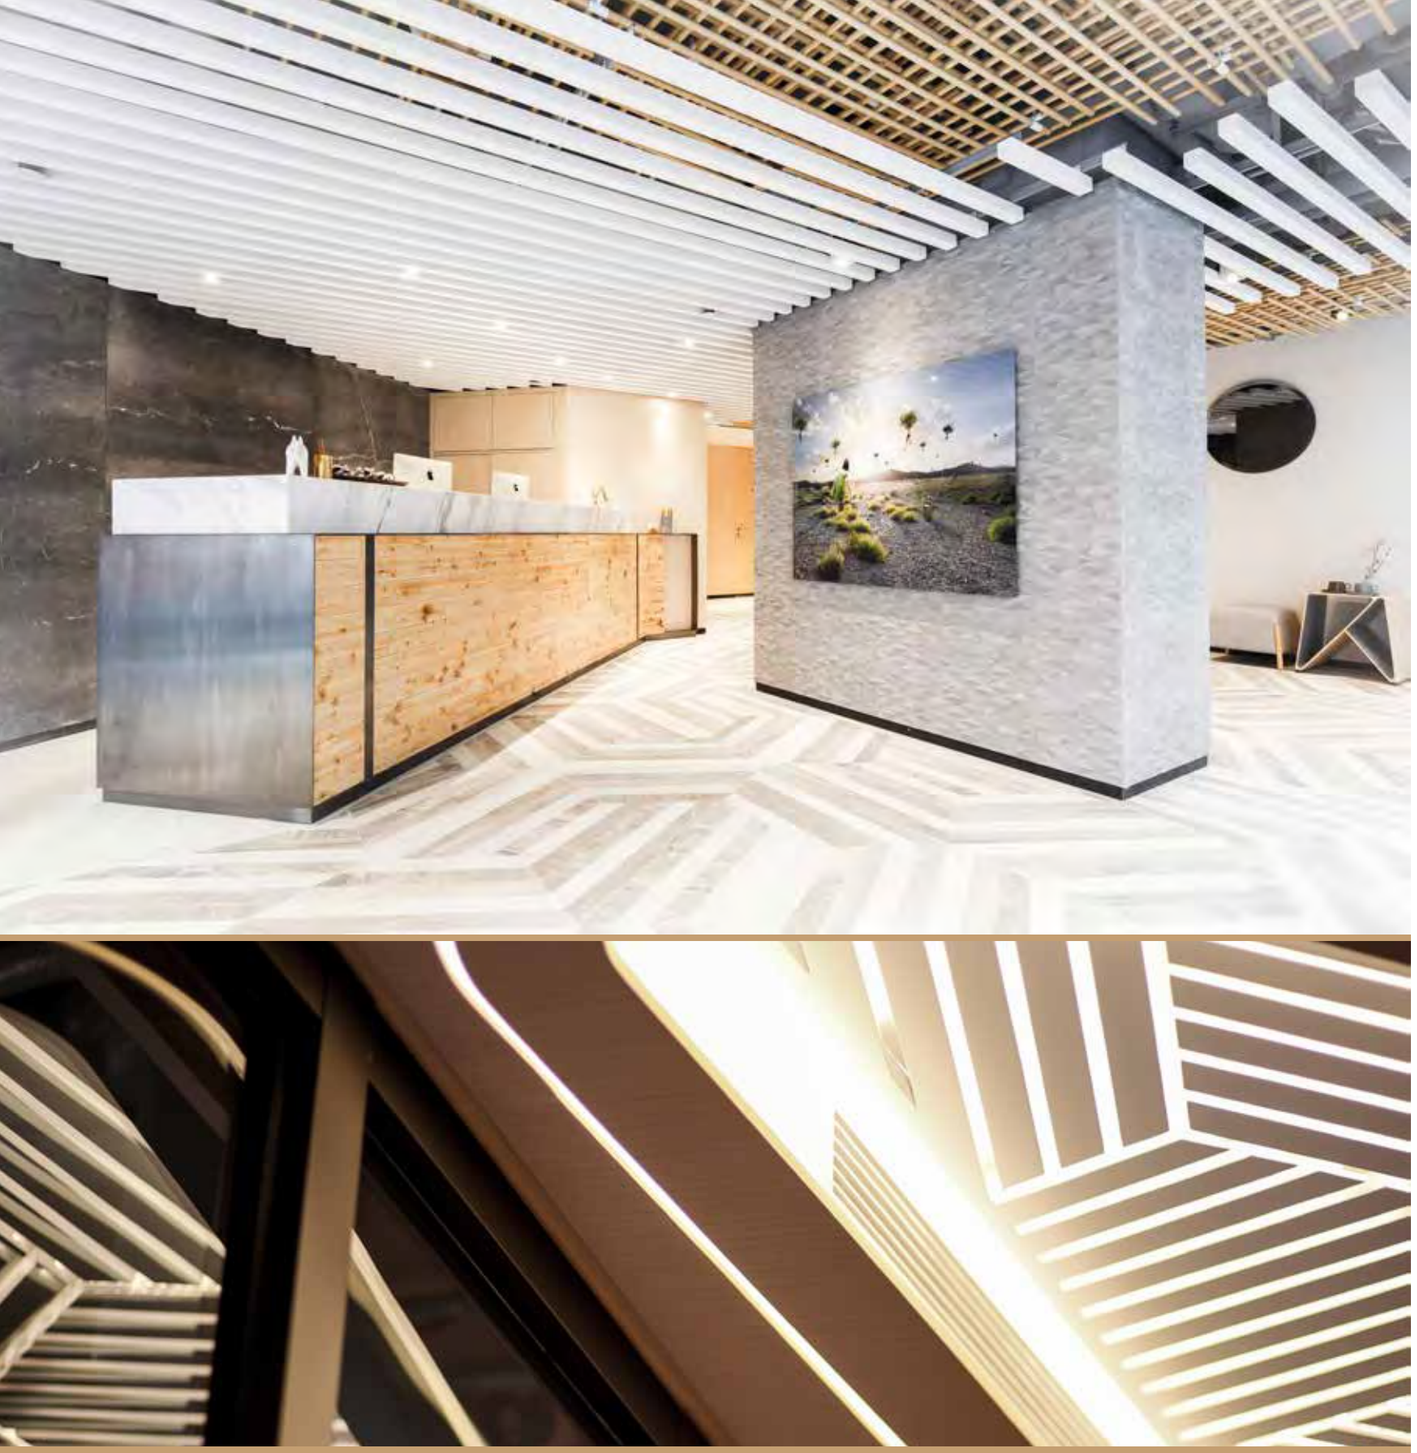
Level: **21**

No. Of Room: **170**

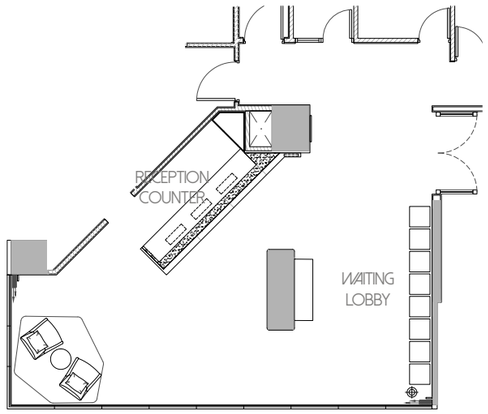
Room Size: **13-33 sqm**

Initially a commercial building now transformed into a teahouse-like hotel located in Kwai Chung. The concept is to bring in different elements such as concrete, wood and matte.

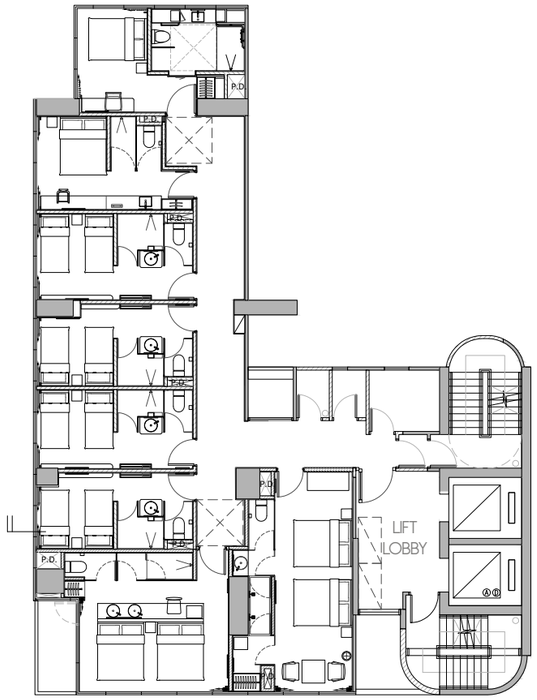
Connect guests with minimalism - Throughout the hotel, we have used wooden colors combined with shades of grey and white for a neutral atmosphere. The interior space also connects the guests with minimalism - people can experience the simplicity and inner peace here.



‘the rooms would have a balanced and comfortable atmosphere with less reflection’

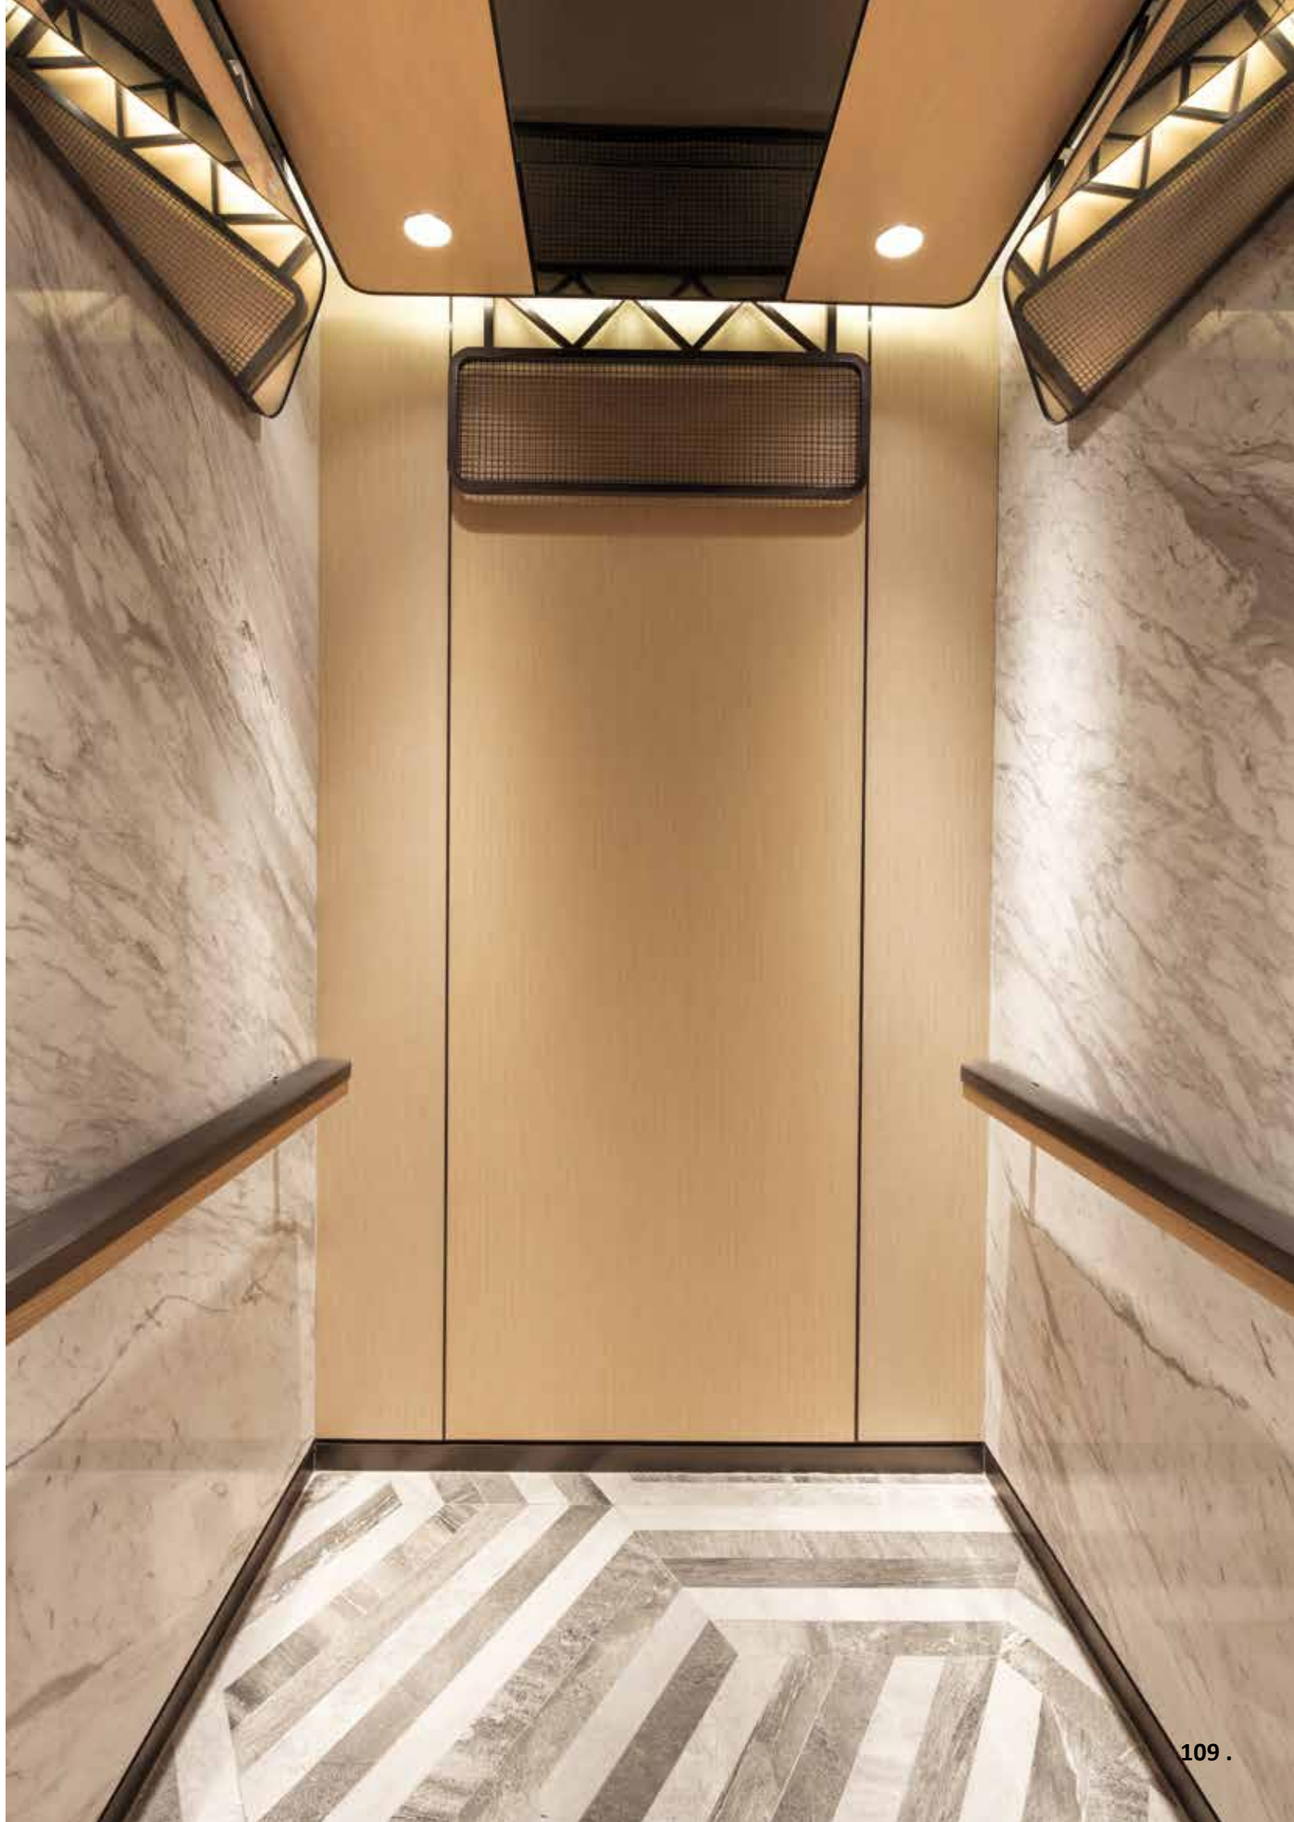


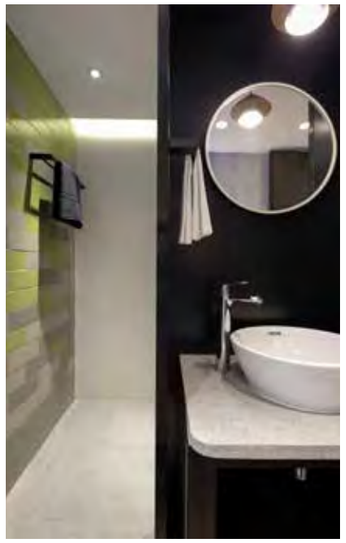
1 / F RECEPTION LOBBY



3/F LAYOUT PLAN

Themed by Nature - This hotel is themed by nature and to capture this essence we have used liberally planter boxes around the hotel to bring in nature from the outside into the interior to create a warm and cosy ambience. Green elements are distributed throughout the hotel - concourse, corridor, guest room, and even the room number.



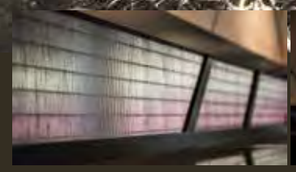


To guarantee a relaxing night - In the guest rooms, we also adopted neutral color tone to unify the style throughout the hotel. Thanks to the simple and minimal design, a goodnight's rest is almost guaranteed here.

Unique patterns around the hotel - With a mixture of materials such as carpet and concrete juxtaposed with unique patterns around the decor, a modern and stylish ambience is enhanced.

From commercial to minimal - The building is initially a commercial building surrounded by factories and industrial buildings. To give a brand new experience to the guests, we have transformed it into a quiet and contemplative environment. It would be a brand new experience for the guests staying in the hotel.

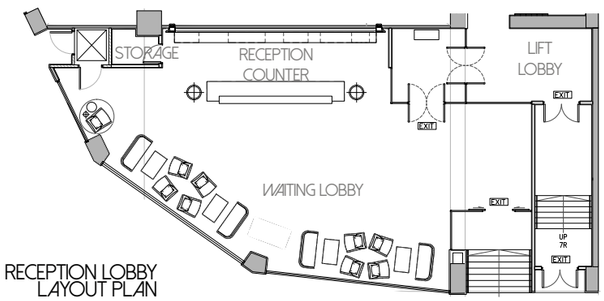
HOTEL EASE
CHUN PIN STREET



Inspired by the 1920 New York City - the commercial heart of America, with the growing of businessmen, traders and planters. The city has impressed people with profession so large that the amount of quality lodging establishments began to emerge.

Themed by Art Deco - Hotel Ease explores an Art Deco theme, a movement that has a distinguished style of simple and clean lines with bold geometric forms. This can be seen on the lobby flooring, using black patterned marble arranged in handcrafted planks to create a dynamic look.

Formal and professional ambience - Behind the reception, the square frame décor is made of brass stainless steel – slim, straight and tough, a combination of delicacy and harshness to emphasis the professions of New York. The unique silver-grey timber veneer is the main wall-finishing that surrounds the hotel, this veneer is visually shinny and carries the raw texture of wood grain, transforming the place into a high-ended hotel.

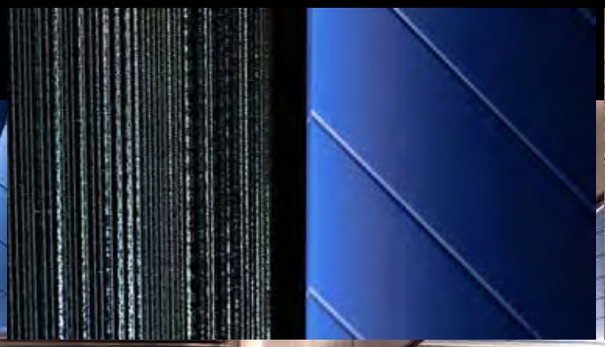


UG RECEPTION LOBBY
LAYOUT PLAN

"Stepping back in old New York"

The corridors are decorated with paintings, bicycles and old fashioned suitcases and cameras for an authentic look and make the guests feel as though they have stepped back in time of New York.

Support to local art - The corridors on each floor have been turned into an art gallery, featuring works by local artists, as part of the hotel's support of art development.



PROJECT INFO

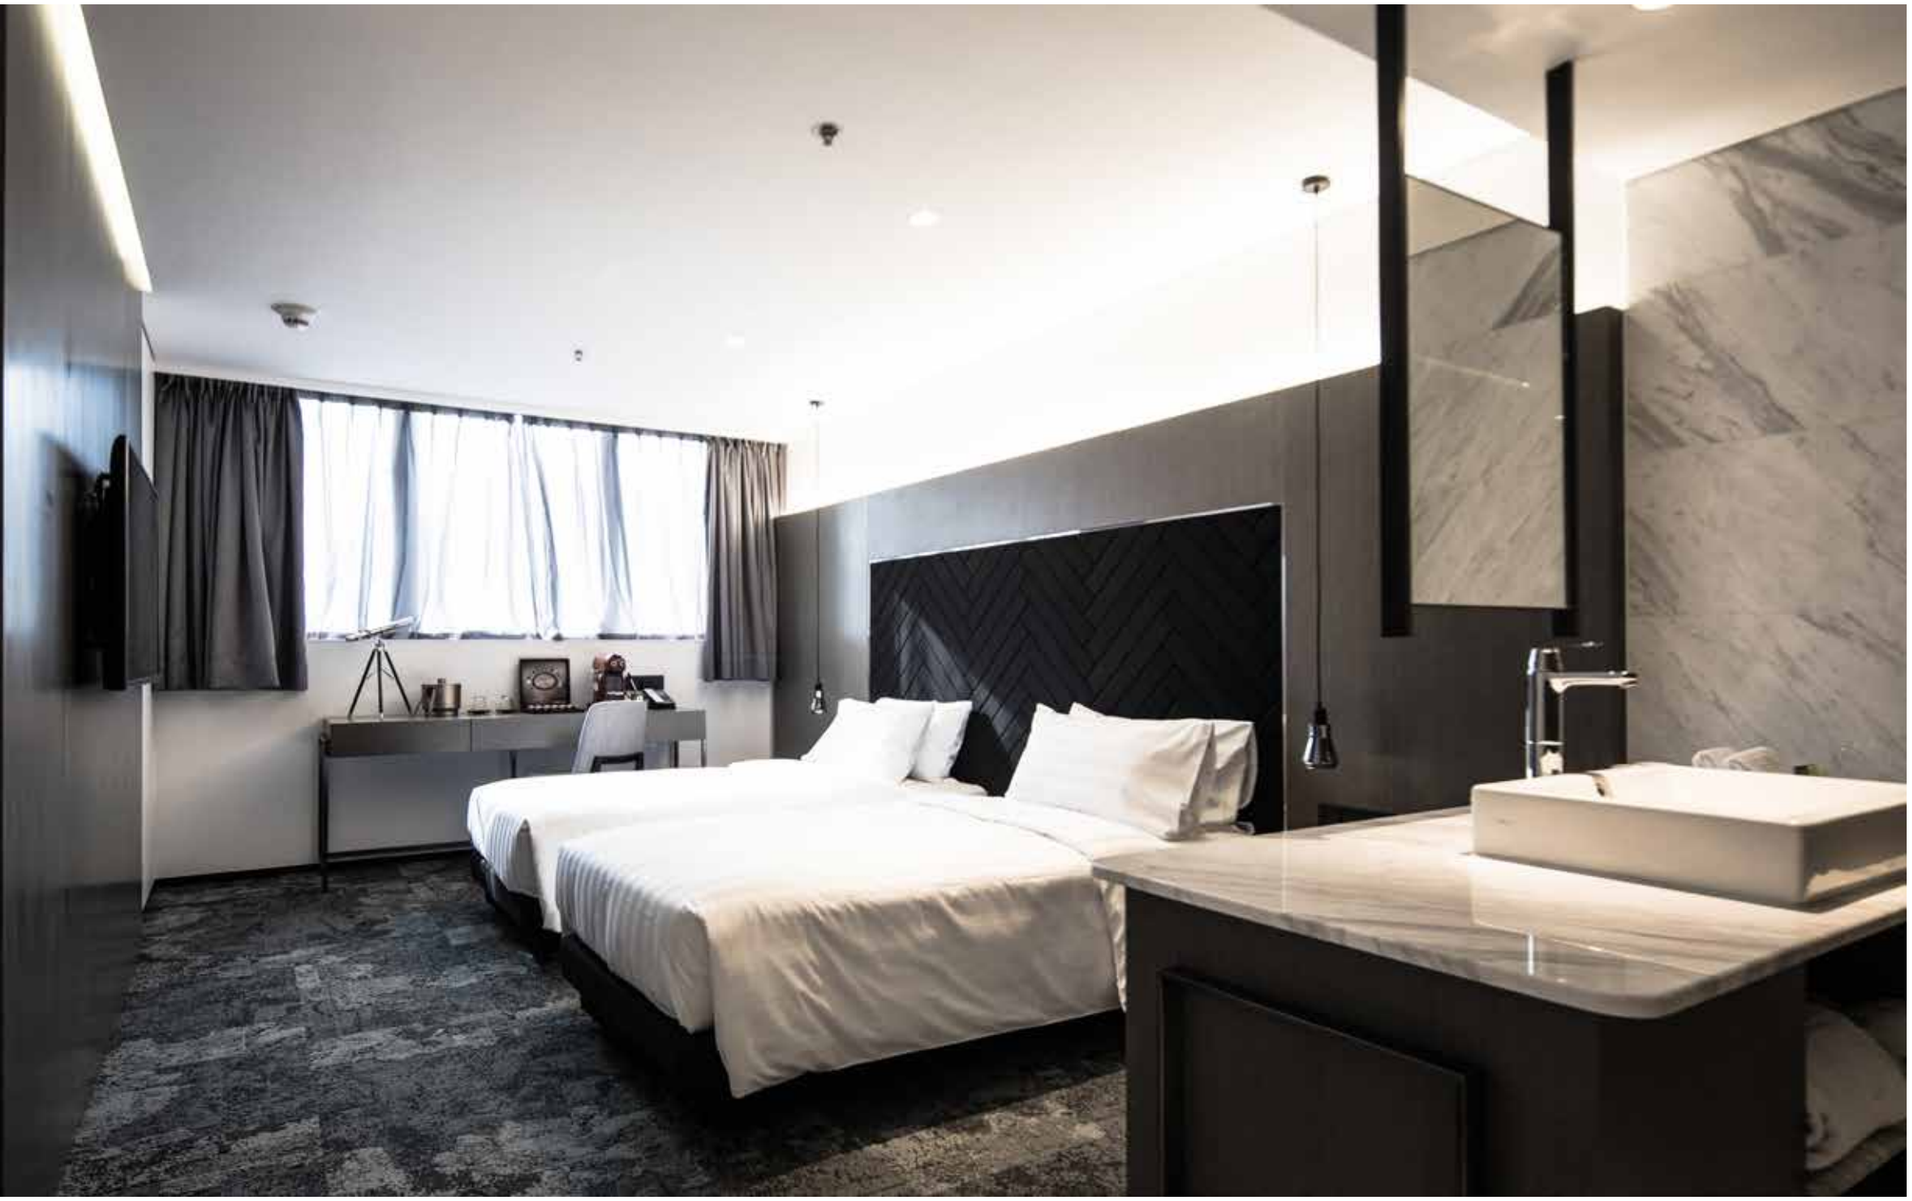
Location: **Kwai Chung, Hong Kong**

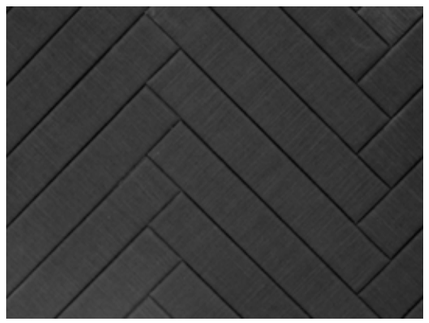
Size: **9944 sqm**

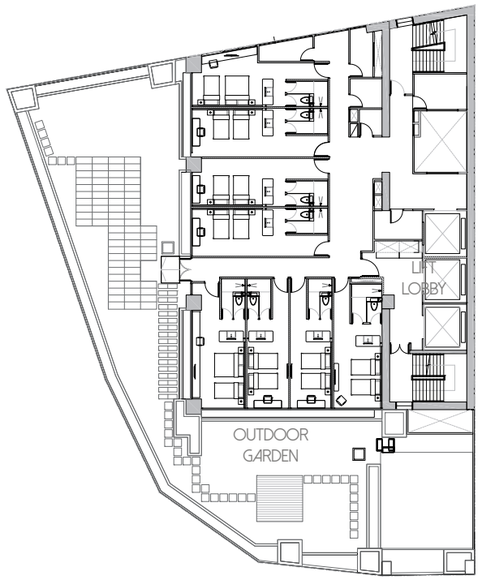
Level: **22**

No. Of Room: **160**

Room Size: **23-30 sqm**



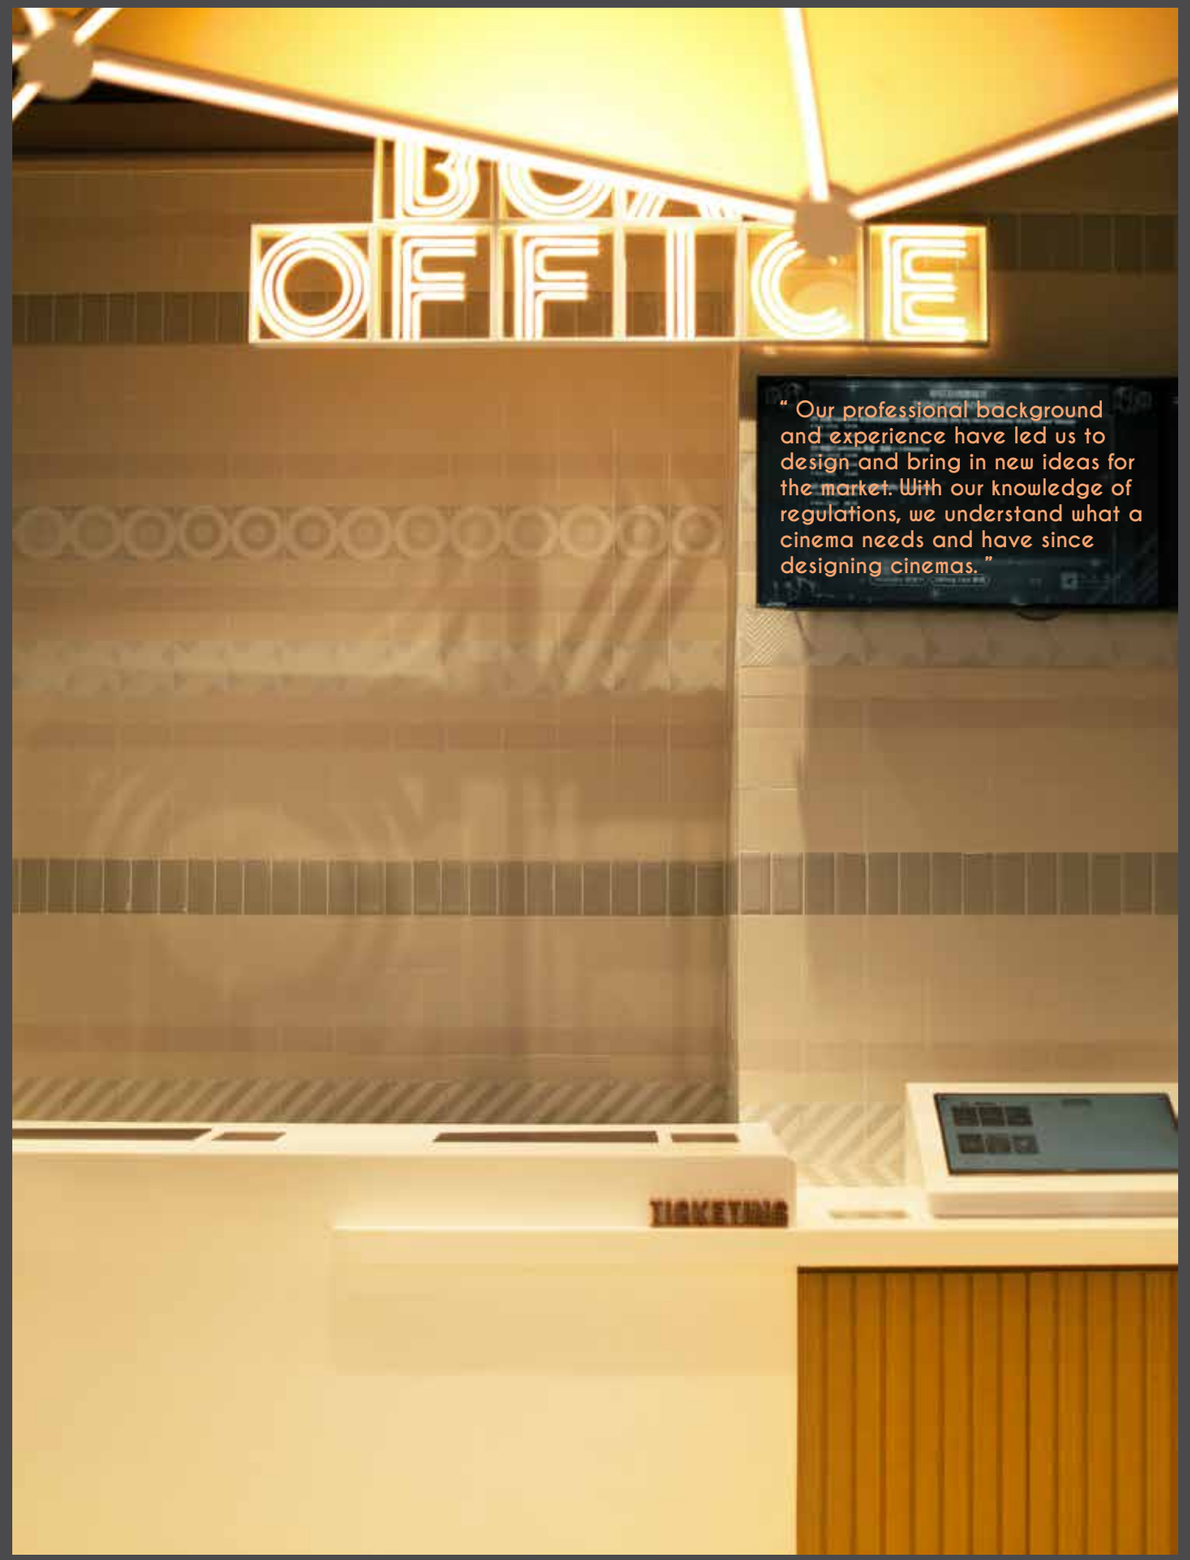




3 / F LAYOUT PLAN

Classic and elegant guest rooms - The hotel of 160 rooms is furnished with a combination of black, white and navy blue, a formal color palette, that can be associated with professionals, to create a classic and elegant ambience. The room numbers are designed in a unique font for a touch of Deco. The hotel also includes a restaurant, gym facility and a terrace garden on the 3rd floor for guests to relax and enjoy their stay.

CINEMA ENTERTAINMENT HUB

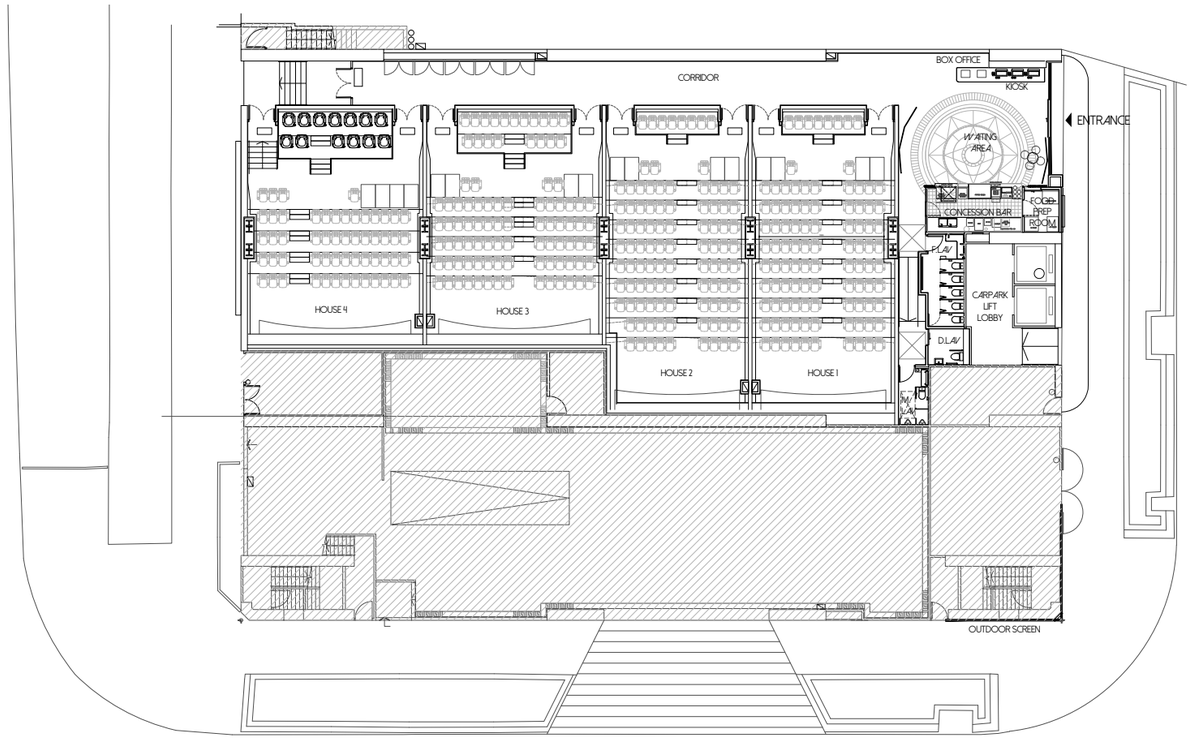


" Our professional background and experience have led us to design and bring in new ideas for the market. With our knowledge of regulations, we understand what a cinema needs and have since designing cinemas. "

GH TAI PO
cinema

"Glamping experience with a good movie"

Golden Harvest Tai Po Cinema is known to be the long-awaited first cinema in 20 years for the Tai Po Community, locating in the heart of the area at Tai Po Mega Mall. The fascinated façade of the cinema is designed to arouse the attentions of the neighborhood, with an enlarged black & white boho pattern and colorful lighting signage that echo to the interior design concept. Another striking feature of the façade is the big LED digital screen at the street corner, presenting the latest movie trailers and marketing promotions with '3D-effect' media contents.



MASTER LAYOUT PLAN

To celebrate the beautiful nature and many of the famous outdoor family activities at the nearby Tai Po area, Golden Harvest Tai Po Cinema is offering a whole new GLAMPING experience for the customers not only to enjoy good movies, but also get to spend quality time with their families for better bonding. While to create the ambience and excitement of a fun & extraordinary adventure, the cinema has brought different outdoor nature fantasies into the space as part of the cinematic experience.

Customers are ushered by a giant glamping dome feature in the Lobby area, together with a dynamic projection of different natural wonders as a welcoming gesture to the customers for starting their glamping journey in the cinema. The Lobby has also been dressed in terracotta color tone with various BOHO patterns at the snack bar and box office to resonate with the glamping mood and ambience.

For the cinema houses, 4 different themes of natural wonders, including the Ice Mountains, the Desert Sunsets, the Tropical Rain-forest and the Northern Lights, being assigned to the 4 houses. Customers also get to have a glimpse of the 4 themes at the lobby dome projections and also being heads up by the respective theme colors in the corridor outside each house.

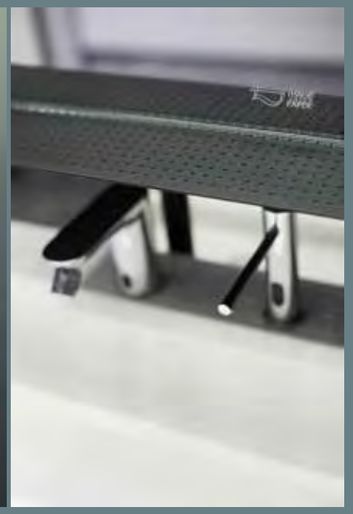
CINEMA LAYOUT PLAN

GH VWALK
cinema
nam cheong

Golden Harvest Vwalk Cinema is situated in West Kowloon, with a newly-opened shopping mall that gathers the majority of young ages and upper-class residences. To offer the viewers an enchanted cinema experience, we have dedicated the Vwalk Cinema a concept with a unique 80's art in a modern way, by fusion of the Art Deco and Bauhaus styles in the spaces.

The customers are ushered by the bronze aluminium cladding entrance together with two full-height display screens, which stand as the gesture of an entrance door and passerby can have a glimpse of the lobby interior.

Entering the lobby, the up-scaled patterns and bold ceiling features are there together to greet the customers and define the use of space. A variety of materials in earth tone colours to give a warm ambience that resembles with the shopping mall as a whole.



‘travel along with an art sensation!’

The corridor is only the beginning of your journey into the houses, it serves as a transit platform for viewers to get prepared before going into the cinema houses. We have used a darker tone in this space, yet the checker pattern carpet, enormous house number signages, and the chromed metal mesh ceiling feature are still responding to the design style.

We have also designed a Feature Theater for Golden Harvest Vwalk, also known as the ‘Home’ house because it has been designed with a unique composition of Morocco, inspired by the movie Casablanca. With 64 leather seats surrounded by printed pattern carpet and brown-toned wall fabrics to capture a warm and relaxing atmosphere. A digital fireplace is also added to emphasize homely scenery.

All Theater have been designed with a different style, using similar colours of grey and beige fabrics and carpet; a touch of blue suede has been used to create a different character for each of the houses.

The toilet uses the same colours of grey, blue and black that are combined to create a calm atmosphere. The use of white around the interior helps creates depth and brings in light.

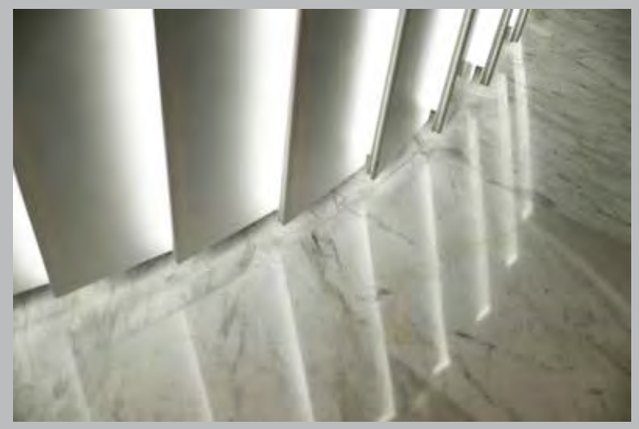
TMT PLAZA



‘ dancing under the chandelier ’

The design is adopted in 20th Century French Art Deco with a Contemporary style. We used clean, simple linings and clear-cut pattern to correspond with natural marble and wooden materials. To create a modern dynamic interior space, the use of metal and crafted glass in the details take the whole design to another level by indulging unique Art Deco style to the cinema.

CINEMA LAYOUT PLAN

A huge deformed Chandelier as the main feature of the box office, the light cast reflections on the floor and ceiling to diffuse artistic atmosphere throughout the interior. The magnificent and elegance becomes the attraction and that's where the focus point stands. At the back of the box office, customers may sneak peek the "Backstage" VIP room. Inside you'll find craft glass and crude wood interior as insolation layer, this creates a looming effect which triggers customer's curiosity and ambitions.

To provide an exclusive experience, we applied theatrical design concept within the cinema houses. This creates a harmonized and solemn atmosphere to allow customers to indulge in the movie not just as an entertainment but also an artistic activity.

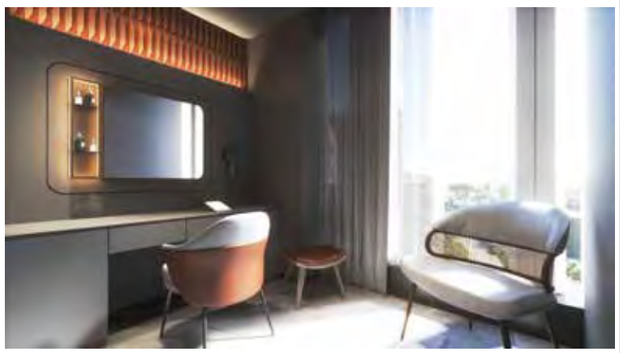
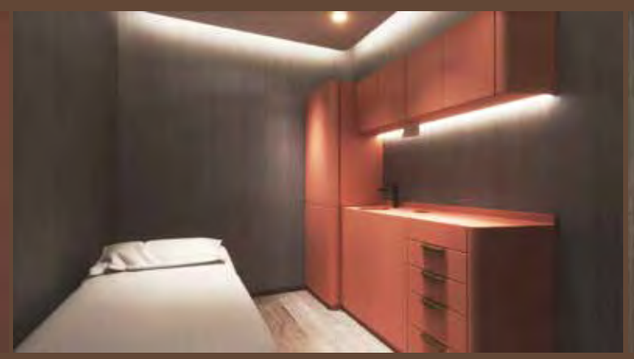
standard clinic interior”





CBRE OFFICE

pacific place 1 concept

Each **CBRE** office has its own identity around the world. Although they all share the same core value, it is also very important to define their different characteristics locally. Each office in different locations could express their own culture and uniqueness. Therefore, we are seeking for a unique concept for the Hong Kong Office, to be definitely Hong Kong.

We understand that although the Office is located in Hong Kong, the Audience will not only be restricted to the local. So that we have come up with a concept that is very Hong Kong, which is a design style that could balance between worldwide audiences.

Introducing Bing Sutt冰室 as the concept for the CBRE Hong Kong Office is because Bing Sutt has always been addressed as an attraction for foreigners as well as a home local gathering place to exchange information. They own the character of being efficient, hard-working, a great place for a business gathering and exchange information among the neighborhood. Its an abstract way to present CBRE's Core Values:- Hard-Working, Business Gathering, We get our Hands Dirty, Glocal, Passionate and Social.

In terms of styling, we have used Contemporary and Avant-Garde Style to embrace the Idea of Bing Sutt. From extracting the principal elements, such as Mosaic, On-wall Menu, Signage, Outline and Lightings. They allow us to reconstruct them back, with a more modern approach, infused with clean layout and form, we have turned Bing Sutt from the old days to the future.

MASTER LAYOUT PLAN

L'OCCITANE SKINCARE STORE

beijing concept

The design concept is to express the brand's message - Culture, Passion, Nature, and Love - at the same time, to enhance the connection between customers and the mother nature when nature seems hard to reach nowadays.

Considering the brand's commitment to preserving the breathtaking natural environment that never ceases to amaze, we have proposed to use the "Immortelle Flower" as a key interior solution - dried flowers are preserved inside colorless resin cubes to symbolize the message of "True beauty is timeless". The counter at the centre of the store is designed to emulate a blooming flower, centralizing the consultation area, experience area, and sales area. The resin cubes are spreading out from the counter, symbolizing the natural beauty essence that is collected and distributed from Provence to worldwide through the effort and spirit of **L'OCCITANE**.

Adopting the brand color - yellow as the main color tone of the interior, different texture, and materials - antique brass, bronze, and marble incorporated to bring out the warm ambience of the mother nature and the connection to a new modern era.
